ENRICHMENT & EDUCATION

Not all programming is offered at each center

Chess I/Chess II

Introduce chess mats, pieces and how they move, and set up and clean up. Learn to keep score using algebraic chess notation, rules and strategies to improve your game. A skill not too many people can say they know, which is an awesome quality in anything that you do.

Computer Basics

This computer class will get you through the basics. We'll show you how to turn on your computer, use your mouse and navigate through the Internet. Once you're comfortable with your computer, we'll show you how to create basic documents using Microsoft Word and Excel to name a few.

Energy, Forces & Flight

Hold on to your hats, because Mad Science is back! Take a tour on the electron freeway, as we study "current" events. Grow your very own crystal garden as we eliminate the mystery in Che-Mystery. Learn about the incredible "Fun"-damental Forces as we study gravity, inertia and centripetal force, and then discover what shapes make the world's strongest buildings. Explore aerodynamics and the properties of air, and make your very own loop-flying stunt plane. All this and more, in this session of Mad Science!

Gobble Up Science

Science is a fun and creative way for students to learn about science and nutrition. This class is packed with activities and experiments to motivate students and get them thinking about the world of science. After the students complete each activity, they will able to eat it!

Math Mentoring

Math Mentoring will give your child the confidence needed to succeed and a helping hand to develop skills. Students must bring Math homework, math book, their own pencil and paper for each class. Six students per class.

Mental Math

Students enhance their Mental Math skills through Power Math. Using the abacus, they will understand arithmetic better and learn to solve math equations quickly. A $20 cash supply fee is payable to the instructor for workbook and abacus at the first class meeting.

Reading Ready

Reading Ready course is designed to improve your child's vocabulary, spelling & reading comprehension. Parents will need to provide reading materials requested by the instructor. Please bring lined paper & pencil for each class. Six students per class.

Reading Tutoring

Reading Mentoring will give your child the confidence needed to succeed and a helping hand to develop skills. Students must bring an age appropriate book, their own pencil and paper for each class. Six students per class.

School Age Spanish

It's never too early to educate your kids about another culture by learning the language. Your child will learn the basics of this amazing language through fun hands on activities, worksheets, songs, stories, projects and games. An end of the season fiesta will be celebrated to go over the things they have learned.

Science Rocks!

Discover some fundamentals of science in this series of workshops. Learn all about chemistry by mixing stuff together. Join the Mad Science Astronaut in Training program and learn about the elements of space. Listen to sounds and rhythm and study the science of music. Learn about the power of air, and build your own cloud climber. Create a cloud in a bottle and make it rain... inside!

Spanish Para Chiquitos

Introduce your little ones to the wonderful language of Spanish. The children will enjoy the learning phrases, colors, numbers, days of the week and so much more. The concepts of the language will be taught through hands on activities, worksheets, songs, stories, projects and games. An end of the season fiesta will be celebrated to go over the things they have learned. Potty trained participants only and no parent participation.

Stranger Danger –Escape Workshop

In this 2 hour parent/participation workshop is for youth of all ages. In this program, participants will learn assertive ways of saying "NO" to strangers, preventive things to do to discourage strangers who intend to do In this 2 hour parent/participation workshop is for youth of all ages. In this program, participants will learn assertive ways of saying "NO" to strangers, preventive things to do to discourage strangers who intend to do them harm, and self defense techniques to get away from a kidnapper or assailant. This program has recently been a T.V. feature shown on the Montel Williams Show Simple

Wacky Wonderful Science

What do kids and scientists have in common? They both ask WHY? Both kids and scientists love to figure things out. In this class, the children will have fun learning science through wacky and outrageous experiments!
